SARACENS HIGH SCHOOL

Newsletter

Summer Term: April to July 2022

A message from the Principal

Dear Parents,

It has been a wonderful year at Saracens High School. In a previous communication I wrote about being the school that we needed to be during the pandemic, and how that conflicted with us being the school we want to be. This year we have re-introduced so many lost elements of our curriculum and we returned fully to the business of education.

We believe that education is more than just remembering academic information to regurgitate in exams at the end of Year 11 and Year 13. Our responsibility is to prepare pupils for adult life in the modern world, and so our wider curriculum is fundamental to the education we deliver. We know that employers recruit those who are reliable, hard working, can work well with others, and can solve problems. Qualifications merely get the applicants foot in the door, but it is their character that will dictate if they are successful. So to return to the Futures Programme, extracurricular activities, Celebration of Achievement Evening, and Making Memories activities has been a real highlight for this year.

We have also had a number of firsts this year having moved to the new building. Our first school production took place, our first #TogetherWeCreate (Arts) week, and our first Stamp Out Prejudice (SToP) event all add to the wider development of pupils. My highlight of the year was taking 21 pupils to visit 10 Downing Street, where pupils met advisors to the Government, and learnt about their jobs.

We are now looking forward to our first set of GCSE results in the summer (for our community language entrants) and our first Ofsted report, which should be published in early August. Next year we will have our first Year 11 cohort indicate their Sixth Form pathway, and at the end of the year they will sit their end of KS4 exams.

We are very excited about launching our Sixth Form, which alongside a traditional suite of A Levels and vocational awards, we are launching a Pre-Apprentice pathway which will help young people directly into work, a Saracens pathway for potential rugby and netball players, and hopefully two T-Levels (one in Health and the other in Digital Media). Aside from the traditional A Levels, the other pathways are unique to the local area and further demonstrate our commitment to fully supporting pupils into adulthood.

Once again we are growing, and we are impressed with the quality of staff we recruited for September. This year, we are saying goodbye to a number of colleagues who move on to pastures new. The list of leavers and joiners is later in the newsletter, and I want to thank them all for their contribution to the school.

I do want to acknowledge in particular, Mr Mitman, who was one of founding staff members when he was our Year Lead and subject Lead of PE. We are grateful for all his hard work in supporting pupils and families of our current Year 10s, and the contributions he has made to the wider school. Mr Mitman leaves us to join the Senior Leadership Team of a school in Hertfordshire and we wish him the best of luck.

I hope you all have a safe and enjoyable summer break and look forward to seeing everyone in September.

Dr Stevens Principal

Science

Years 7 and 8 have been learning about ecosystems, forces, reactions and electromagnets. These topics include: interdependence, plant reproduction, respiration, photosynthesis, speed, gravity, contact forces, pressure, acids & alkalis, metals & non-metals, types of reaction, chemical energy, potential difference & resistance, current, magnetism and electromagnets. During the course of these topics the pupils have carried out lots of practical investigations successfully & safely!

Year 9, the combined science groups have been studying the organisation in animals & plants and structure & bonding, moving onto electricity after their end of year exam.

The single science group have also started some physics content on electricity, chemistry content chemical calculations and biology content diseases

Year 10, the combined science groups have completed work on photosynthesis and respiration, included a required practical activity.

The single science class have also completed additional biology, chemistry and physics content, including nervous & hormonal response, crude oil, organic reactions and fuel, as well as radioactivity.

KS4 practical—Hologram

KS3 practical Blue cop-

KS3 practical Rainbow colour flames from burning different metals

Mr Tester Subject Lead — Science

PIONEERS

Saracens Pioneers are a team of match day volunteers who represent the smiling face of Saracens Rugby Club's StoneX Stadium, and who offer a unique approach to the match day experience for all spectators and visitors to the stadium. Click here to find out more and join them.

Futures Programme

The summer term has been full of opportunities for pupils to engage in thinking about their future.

Middlesex University

In April, all Year 9 and 10 pupils took part in the visit to Middlesex University. It is our local university and our aim was to show our pupils what an inner city university campus look like and what university life is about.

Our pupils were met by University student-ambassadors who were very generous with their time and included in the plan of the day a couple of talks about university life and societies as well as a tour of the campus. Our pupils left such a good impression that this will be come an annual event for all Year 9 pupils.

Oxford University

Another opportunity that we embraced last month was the invitation to Oxford university. As there were only 30 places available, the selection was done by application where the pupils had to write a letter explaining the reasons why they deserved a place in this visit. The response from pupils was overwhelming and the competition for a place on this visit was fierce with 79 applications submitted for only 30 places on offer. It was great to see pupils being supported by their Learning Coaches, families and acquaintances to submit a strong applications.

We travelled there by coach and during the day the pupils were able to attend a lecture, speak to current Oxford University students, visit the National History Museum and have a tour of their amazing campus. The visit was inspiring and certainly encouraged our pupils to practice our values of discipline and hard work as the opportunity to go to a university of this caliber is within reach to them.

My Future, My Choice

Our annual 'Futures' event, where pupils have the chance to hear presentations from different professionals about their jobs, took place on Wednesday 22 June. We were fortunate to have more than 50 speakers in school from different industries. All of our visitors were linked to members of the Saracens family and we were delighted to have among them, six parents and two school governors. We had lawyers, civil servants, engineers, entrepreneurs, economists, radiographers, physiotherapists, writers, publishers, designers, architects, accountants, bakers, professors, coaches, former rugby players and magicians. This is an event that our pupils look forward to every year and sparks conversations about their future with Learning Coaches and parents.

School attendance and punctuality

Our pre-pandemic attendance was always excellent, but we are yet to get back to those levels. To support schools the government is consulting on new legislation, which is likely to mean that unauthorised absences, holidays during term time, and persistent lateness will result in a fine being issued by Barnet.

95%		47 LESSONS MISSED EACH YEAR 8 days in total or 1 week and 3 days	ATTENDANCE
90%	=	95 LESSONS MISSED EACH YEAR 16 days in total or 3 weeks and 1 day	MATTERS
85%	=	142 LESSONS MISSED EACH YEAR 24 days in total or 4 weeks and 4 days	WHAT DO YOUR ATTENDANCE
80%	=	190 LESSONS MISSED EACH YEAR 32 days in total or 6 weeks and 2 days	FIGURES ACTUALLY MEAN?
	Ī	BE SMART BE THERE! Percentages based on 190 academic days	

We work closely with our Barnet Education Welfare Officer who will be in school 1 day a week from September. She recently came to review our attendance and was disappointed to see that it is so much lower than our target of 97%, and she asked for the message below to be included in the summer newsletter.

Children who are unwell (e.g., sickness, vomiting or high temperature) should not come to school but children who are slightly under the weather should attend. Please be assured, that if we feel your child is ill, the school will send them home.

Punctuality was another concern. When your child is late, they miss vital learning including the introduction to lessons. Arriving at school on time is extremely important for your child and we encourage parents to teach their children to be punctual as this is an important life skill to have in the future.

We have made great improvements with parents encouraging children to leave home earlier to ensure that their child has a prompt start to the school day. We have also discussed morning routines and effective ways to ensure you arrive with your child on time every day

When your child is absent for more than three days, we would expect all parents to substantiate with medial evidence. This would be a stamped doctor's appointment card, information about the medication your child has been prescribed (a photo can be emailed to the office or brought in on return to school). As you know, we can administer medication on site (if it is prescribed by the doctor).

When you child is absent from school it is your responsibility to contact the absence line each day that you child is not in school. The Absence line number is 0208 181 3180 and select the attendance line. Please give your child's details clearly and their year group. You may email attendance@saracenshigh.org to report your child's absence.

Absences before and after school holidays will be monitored. If there is not a sufficient reason to substantiate the absences, the Education Welfare Team will issue a fixed penalty notice. This fixed penalty notice is issued when the child returns to school

Physical Education

Summer term has seen some summer highs and not just with the tempera-

Years 7.8 and 9 rounders teams took on the task of Barnet tournaments and athletes from all years competed at Stone X stadium for places in the Barnet championships team, and some impressed so much they made it into the team to represent Barnet at the Middlesex Championships.

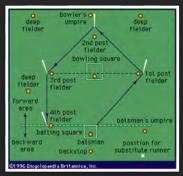

Saracens High School teamed up with Sport Inspired and a number of local sports providers to put on a primary school Sports Festival at Saracens High School.

62 Year 8 students were trained to lead the primary schools for the day through a range of 6 different sporting activities.

Year 8 pupils were a fantastic asset to the day and rose to the challenge of this leadership task. All of the primary school students (Year 3 and 4) had a fantastic day.

Barnet rounders championships 2021/22

29 Barnet school recently competed in the Barnet rounders championships; where our Year 8 and 9 pupils progressed well and improved with every game they played.

Year 8 finished 7th and Year 9 were just pipped to a medal finishing 4th.

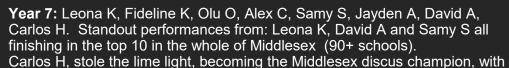

It was a great first year in the Barnet rounders Championships tournament for us and we look forward to Year 7 taking part in their tournament soon. Good luck Year 7!

Athletics has been the greatest sporting success of the summer and we still have the Barnet championships to come and wish all the competitors well for these.

In June we competed in the **Middlesex Championships** where 18 pupils were selected to compete in various events.

29 Barnet secondary schools compete so it is an amazing achievement for pupils to be selected.

a throw close to 20-meters.

Year 8: Ardian C, Ahmed O, Dereon W, Victorus J, Amelie T, Iris A, Jess J Stand out performances were from: Victorus J finishing 4th in the 1500-meters,

Ardian C finishing 3rd in the 200-meters and

Ahmed O, (matching Carlos in Year 7) finishing a Middlesex champion in a phenomenal 300-meter run with a winning time of 43-seconds.

Our Year 9 and 10: pupils were selected to represent Barnet at the Middlesex Championships and compete one-year group up:

Ahmed O (Year 8) Triple jump (Year 9 competition) Long jump (Year 11 competition) Ege S (Year 10) Ra'Shaun L (Year 10) Shot put (Year 11 competition)

Mr Giles Subject Lead — PE

English: Macbeth workshop

In English this term, Year 10 were able to bring their studies of Macbeth to life with a visit from an actor from The Royal Shake-speare Company. Having visited The Globe Theatre to watch Macbeth earlier on in the year, the interactive workshops were an excellent opportunity for our Year 10s to refresh and recap their understanding of the play, whilst approaching the text as an actor as well as a student.

This was great preparation for their GCSEs, and a way of bringing the play and the language to life!

Miss Rowland-Simms
Teacher of English

Library

This term has been an exciting period for the Library Champions Club. Four pupils from Y8 and Y9 took part in the regional heats round of the National Reading Champions Quiz organised by the National Literacy Trust and secured third place, which is a fantastic achievement. Pupils in the Library Club have also been promoting and shadowing the 2022 Carnegie Medal Award, an annual national children's book award, judged and voted on by young people across the country. Our pupils have been reading and writing reviews, making predictions for the shortlist, running competitions, designing displays and bookmarks, and finally voting for their favourite books online. A few of their book reviews were also published on the official Carnegie Awards website. In return for their hard work, pupils have received a certificate of participation from the Carnegie Medal organisers. Shadowing these awards has been a great way to celebrate the joy of reading.

Our Library Champions are currently working hard on making postcards to welcome the new Year 7s in September.

Mis Anjali Librarian

Catering and meal payments

We hope your children are continuing to enjoy the fresh, healthy, seasonal food provided for them by our professional catering team, led by Cristi Ilioi. Cristi also provides bagels, cereal and sometimes scrambled eggs at our breakfast club. There is no charge for breakfast, as we are part of the National Schools Breakfast Programme. Breakfast is available from 7.45am (school gates open from 7.30am). Please would you pay all amounts outstanding for school meals by the end of July. If you think you may be eligible for Free School Meals.

Please follow this link on our website; click here,https://www.saracenshigh.org/Parents/Free-School-Meals/ or contact the school office if you need support with a free school meal application or if you are having trouble paying for meals.

We will be sending out a further voucher soon, for the Household Support Grant, for those pupils on free school meals. This covers the period June, July and August.

Mrs Edwards Trust Business Manager

Design and Technology

Design and Technology has had another great term in the new building. We have taken delivery of one more 3D Printer, the metal lather and CNC machine have been up and running and we have welcomed our new Technician, Mr Scott.

The Year 10's have begun the NEA (project side of their GCSE) and are progressing well with varied and interesting design concepts, and some of the Year 10 pupils have used their DT skills to create items for STOP.

The Year 9's are completing the year with Vacuum forming and Textiles projects to add to their range of skills.

Mrs Garrett-Gunn Teacher of Design & Technology

Resilience

Floyd Steadman came into our school to speak to a small groups of pupils about his eventful life on and off the rugby pitch and his hopes for the future.

Floyd Steadman captained Saracens Rugby team back in the 1980's. Which was unusual for two reasons; firstly he played in the scrum-half position and secondly, he is black. In that era, black men were deemed to be incapable of playing in key decision-making or leadership positions.

Mrs Militello Learning Mentor

Food preparation and nutrition

All years have continued to improve their skills in food/

This term, the new Year 7 classes have learned basic knife skills and cooking skills, making dishes including banana flapjacks, pasta with ragu sauce, savoury scones and pineapple upside down cakes. Year 8 have learned how to make pastry and bread dishes, such as apple pies, bread rolls and pizza. They have also made banana and blueberry muffins, spinach & chickpea curry and tuna pasta bake

Year 8 have learned how to make pastry and bread dishes, such as apple pies, bread rolls and pizza. They have also made banana and blueberry muffins, spinach & chickpea curry and tuna pasta bake.

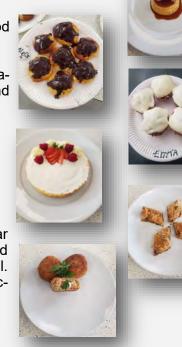

Year 9 are continuing their GCSE course learning about nutrition, food science and food safety as well as improving their practical skills.

Dishes they have made this term include fresh pasta dishes such as tagliatelle and ravioli (pictured); burritos and fruit tarts with sweet pastry and creme patisserie.

Year 10 have been perfecting their cooking skills and practicing their presentation skills.

They have made dishes using short crust, sweet and rough puff pastry this term, as well as high skilled dairy dishes such as Panna Cotta (pictured) and Eclairs.

We also had a successful 6th form taster day for the year 10's to experience a year 12 lesson. Pupils were invited to attend an interview as a sous chef at a five star hotel. They had to produce a nutritionally well balanced, attractive starter for a business customer.

Mrs Cenci Subject Lead Design and Technology

Trooping of the colour

In May, thirty Year 9 Historians were privileged to be one of a small number of schools invited to watch the Trooping of the Colour rehearsal as part of the Queen's Platinum Jubilee celebrations.

It was incredible to watch the discipline shown by the horse guard and royal battalions.

A once in a life time opportunity!

Geography

Osmington Bay

At the end of May 30 year nine and year ten students travelled to Dorset for a residential trip. They completed some coastal fieldwork, and investigated rivers. They also were thrown up in the air on a giant swing and challenged each other to an archery shoot out. They investigated the impact of erosion and costal management on different beaches, and how rivers change along their course.

GCSE Fieldwork

The year 10 geographers have completed half of their GCSE fieldwork. They went to Walton-On-The-Naze to investigate the impact of coastal management on the Icola area and people. They measured beach profiles, the drop height of groynes and the effects of long shore drift (Which involved throwing an orange into the sea).

Ms Hirst Subject Lead—Geography

Foodwise

We all live challenging times and it is very important, now more than ever, to be very wise with the way we plan our budget and meals. Pupils at Saracens High Schools, have taken part in two visits to the local supermarket to learn how to reduce waste and cook delicious meals. Pupils also take to learn to take the bus, speak with shops assistants, calculate correctly change given and carry their own shopping. The KS4 group decided on more over based meals and shared ingredients to reduce waste. KS3 pupils on the other hand focused on more sustainable, wrap like, freezable recipes. Pupils were able to take the food at home and share it with their loved ones.

Celebrating achievements

On Monday, 4th July, the pupils who took part in interventions this academic year, were reunited in the lunch hall at the end of the day to celebrate their achievements.

Pupils received certificates and were congratulated by Dr Stevens for the progress made this year in interventions lessons: Fresh Start, Reading Recovery, Inference, Speech and Language, EAL. Pupils also were offered pizza and juice and they were able to see that the Saracens Family is very happy and appreciates their efforts. The event put a smile on every pupil's face and the teacher's too. By Hajrah Irfan (year 7).

Drama

At the start of the Summer Term we saw the culmination of the National Theatre Connections Project where the Year 9 Drama GCSE cohort performed Like There's No Tomorrow at professional venue the Arts Depot to a sold out audience of parents, teachers and friends. I was incredibly impressed by how far they had come since the beginning of the year and thought the performance at the Arts Depot was testament to the hard work they had put in.

The same Year 9 Drama GCSE cohort went to see Like There's No Tomorrow performed by a youth theatre group from Bristol as part of The Connections Festival at the National Theatre. This was a great opportunity for our pupils to not only see a live production but also to compare how it was performed in comparison to our version. The students also watched a performance of Chat Back performed by a Drama group from Merseyside. Following this educational visit the pupils are now putting their critical evaluative skills to the test in the Component 3 Section B written mock exam.

The Year 7 Drama Club have been working on a 10 week project with Chalk Line Theatre Company in association with the Arts Depot devising their own play whilst earning their Arts Mark Bronze Award. The Year 7 pupils really enjoyed working with external practitioners from Chalk Line whilst earning a Level 1 Award within the Arts. The pupils performed their devised piece in the Studio Theatre at the Arts Depot to parents, teachers and friends. They were particularly chuffed with their dressing room and refreshments.

Last week saw the first round of auditions for The Grinch the Panto which will be taking place in the final week of the Autumn term. There were lots of talented students who took part in a series of challenges in order to showcase their creative abilities. The parts will go up on the Drama notice board before the end of term. Sales for the tickets will be advertised nearer the time.

Miss Nicoll Subject Lead — Drama

Visit to Courtyard School

On Thursday 30th June 2022, a group of pupils and teachers went to visit The Courtyard School in Islington. We were very impressed to see what life was like for pupils with SEND needs outside of a mainstream school. We met pupils in Year 11's, Year 12's and Year 13's. The staff at the Courtyard made us feel very welcome, and allowed us to choose what activity we wished to do for an hour. Personally, I chose PE as I believed it was the best option. In PE, we focused particularly on Boccia, a precision ball sport similar to bowling. Other pupils did a

cooking lesson and everyone had fun. We really enjoyed meeting new pupils and seeing what work experience is like for older pupils. We hope one day to have their ability to navigate the life challenges as they do.

Bradley - Year 9

Pupil Leadership Team

We are extremely proud of our Pupil Leadership Team who have worked hard over the past year to improve the school for their fellow pupils. The focus for this year has been on improving our learning environment. The PLT have supported at whole school events, including conducting parent tours, greeting and entertaining guest speakers and supporting with the school play.

Teaching and Learning Committee

The Teaching and Learning Committee have focussed on educating pupils and staff about recycling and the impact that single use plastics have on the environment.

They have introduced paper recycling boxes in every classroom and promoted the importance of recycling and reusing items across the school.

Character Committee

The Character Committee have been responsible for re-introducing the friendship bench painting programme, which was delayed by covid.

They have introduced different recycling bins around the school grounds and organised a successful inter house football competition

Olta

Halima Blessing

Culture Committee

The Culture Committee have been working on ideas to support all of our pupils, especially those who may feel discriminated against.

They have been effectively collecting pupil ideas to improve the experiences of all of our pupils in school and have helped to set up a diversity committee to fundraise for charity and run inclusive events.

Community Committee

The Community Committee introduced our new year 7's to the school litter picking programme. Pupils were able to help clean up the local area to benefit local residents.

They also organised the Cultural dress day and bake sale, celebrating our diverse community and widening our knowledge about the places we come from.

Mrs Cenci

Sociology update

Our Sociology Year 9 cohort are currently conducting their own Sociological research! Having completed their studies for their first topic on Families, they have decided to conduct an investigation that links well with what will be their new topic on Education in the new academic year when they start Year 10.

The students have chosen to investigate the impact of social class on educational achievement as well the impact of ethnicity on educational achievement. They are currently in the process of creating their own questionnaire which they will be sending out, and then analysing and evaluating the data they gather from it.

Miss Tahsin Subject Lead—Social Sciences

Family Reminders

Mobile phones

A reminder that smart mobile phones are not allowed in school. Pupils can bring a brick phone (without a camera) to school to be kept in their locker during the school day. Any mobile phones found on pupils during the school day are confiscated and will only be returned to parents.

Attendance—Aim for 100%, minimum 97%

Please report your child's absence each day by 9.00am. Clearly state their full name, year and house, and the reason for absence.

Email: attendance@saracenshigh.org or telephone: 020 8181 3180 - press 1.

Late arrival

If your child is late they must come through the reception entrance. They will then go to meet the Pastoral Team at breaktime and if they fail to arrive at break time they will be given a reparation meeting for after school that day.

Messages

Please note we are unable to pass messages to your young person after 1.30pm except in the case of an emergency. For peace of mind please make any after school arrangements or activity plans before your child comes to school.

Contact Details

Please ensure your contact details are up to date. You can amend any of your contact details directly into Arbor or let us know of any changes by calling the office or by email: admin@saracenshigh.org.

Up to date Medicine

If your child keeps any medication in the first aid room at school, please make sure you are aware of any expiry dates and send replacements when they become due.

Non-medical absences

Permission for all non-medical absences or leave of absence requests must be sent in writing, in advance, to school for the attention of the Principal by email: principal@saracenshigh.org or by letter to reception.

School uniform (link to website section)

We would like your help in ensuring all uniform is labelled and PE bags have a name written on also. Items can be returned to their owners only if there is a name inside.

Equipment

Please ensure your child's school bag is ready for the summer term with a full pencil case of equipment.

Please ensure your young person arrives to school every day with everything they need. Including all equipment and PE kit (labelled).

Breakfast Club — Daily from 7.45am to 8.10am

Everyone is welcome to join from 7:45 - 8:10am (the school gate is open to pupils from 7.30am). Breakfast club is free of charge. There is a choice of bagels, toast, cereals and fruit and on Fridays, as a treat, our chef makes scrambled eggs. too

There is a choice of bagels, toast, cereal and fruit and on Fridays, as a treat, our chef makes scrambled eggs.

Nut Free School

We have several people in our community with severe allergies, and pupils should not bring anything with nuts in into school.

Achievement Award Winners 2021 - 2022

The Achievement Awards are primarily about recognising those who put in the effort and do their best.

Sir Jack Petchey CBE

This is the flagship programme of the Jack Petchey Achievement Award Scheme, which recognises outstanding young people aged 11-25 across London and Essex.

At Saracens High School we nominate pupils who are living our values every day!
