Practice Questions

Silent do now:

1. In maths, what does Explain mean?
2. In English, what does Explain mean?
3. What are some top tips for revision?

18 school days to go!
33 actual days to go!

<u>Practice Questions</u>

Do as many practice questions as you can.

Use the practice exam questions in your revision notes too.

1. Practice under exam conditions
- Get the right equipment out
- Time yourself
- Find somewhere quiet with no distractions
- Don't use your revision notes to help you.

2. Use the mark scheme
- All practice papers have mark schemes
- These tell you how marks are allocated and how to get the right answer
- Compare the mark scheme to what you wrote
- Mark yourself, correcting what you got wrong

3. Check out examiners report
- These tell you what people struggled with and the things examiners look for.
- Putting yourself in examiners shoes helps you see how to improve your answers.

4. Do it all again
- Once you've marked your exam and figured out where you went wrong, take a break from it all.
- After a day or 2, do the exam again.
- This helps the right answer stick in your head.

5. Don't Panic!
- Id you don't get a high mark at first, don't worry!
- The idea is to get a bit better each time.

Discipline   **Hard Work**   **Honesty**   **Humility**

Exam questions

1. Discuss the theme of redemption in A Christmas Carol
2. The biggest reason why the League of Nations failed was the Great Depression. How far do you agree?
